

Safety Data Sheet

according to Regulation (EU) 2015/830 Date of issue: 17/07/2018 Revision date: 17/07/2018

Version: 1.0

enoc	
SECTION 1: Identification of the	substance/mixture and of the company/undertaking
1.1. Product identifier	
Product form	: Mixture
Product name	ENOC VULCAN 888X SAE 15W-40
Product code	: 200085
	. 20000
1.2. Relevant identified uses of the	substance or mixture and uses advised against
1.2.1. Relevant identified uses	
Use of the substance/mixture	: Diesel Engine Oil
1.2.2. Uses advised against	
No additional information available	
1.3. Details of the supplier of the sa	fety data sheet
ENOC Marketing L.L.C	
ENOC House I	
Dubai - United Arab Emirates	
T +971 4 313 4613 - F +971 4 313 4616	
1.4. Emergency telephone number	
Emergency number	: +97143374400
<u> </u>	(business hours)
CECTION OF Herende Herendert	
2.1. Classification of the substance Classification according to Regulation (E Serious eye damage/eye irritation, Category	or mixture EC) No. 1272/2008 [CLP]
2.1. Classification of the substance Classification according to Regulation (E Serious eye damage/eye irritation, Category Full text of H statements : see section 16 Adverse physicochemical, human health	or mixture EC) No. 1272/2008 [CLP] y 2 H319
2.1. Classification of the substance Classification according to Regulation (E Serious eye damage/eye irritation, Category Full text of H statements : see section 16 Adverse physicochemical, human health No additional information available	or mixture EC) No. 1272/2008 [CLP] y 2 H319
2.1.       Classification of the substance         Classification according to Regulation (E         Serious eye damage/eye irritation, Category         Full text of H statements : see section 16         Adverse physicochemical, human health         No additional information available         2.2.       Label elements	or mixture EC) No. 1272/2008 [CLP] y 2 H319 and environmental effects
2.1.       Classification of the substance         Classification according to Regulation (E         Serious eye damage/eye irritation, Category         Full text of H statements : see section 16         Adverse physicochemical, human health         No additional information available         2.2.       Label elements         Labelling according to Regulation (EC) N	or mixture EC) No. 1272/2008 [CLP] y 2 H319 and environmental effects
Classification according to Regulation (E Serious eye damage/eye irritation, Category Full text of H statements : see section 16 Adverse physicochemical, human health No additional information available	or mixture EC) No. 1272/2008 [CLP] y 2 H319 and environmental effects
2.1.       Classification of the substance         Classification according to Regulation (E         Serious eye damage/eye irritation, Category         Full text of H statements : see section 16         Adverse physicochemical, human health         No additional information available         2.2.       Label elements         Labelling according to Regulation (EC) N	or mixture EC) No. 1272/2008 [CLP] y 2 H319 and environmental effects
2.1.       Classification of the substance         Classification according to Regulation (E         Serious eye damage/eye irritation, Category         Full text of H statements : see section 16         Adverse physicochemical, human health         No additional information available         2.2. Safety Data Sheet

according to Regulation (EU) 2015/830

### 3.2. Mixture

Name	Product identifier	%	Classification according to Regulation (EC) No. 1272/2008 [CLP]
-Distillates (petroleum), hydrotreated heavy paraffinic	(CAS-No.) 64742-54-7 (EC-No.) 265-157-1 (EC Index-No.) 649-467-00-8 (REACH-no) 01-2119484627-25	5.8	Asp. Tox. 1, H304
White mineral oil, petroleum	CAS No) 8042-47-5 (EC no) 232-455-8 (REACH-no) not available	79.2	Not classified
Calcium petroleum sulfonate	(CAS No) 61789-86-4 (EC no) 263-093-9 (REACH-no) Not available	0.4	Skin Sens. 1, H317
Phenol, 2,2'-polythiobis[4-C8-30-alkyl derivatives, calcium salts, overbased	(CAS No) 90480-91-4 (EC no) 291-829-9 (REACH-no) 01-2119524004-5	0.4	Aquatic Chronic 4, H413
Benzenamine, N-phenyl-, reaction products with 2,4,4- trimethylpentene	(CAS No) 68411-46-1 (EC no) 270-128-1 (REACH-no) Not available	0.3	Aquatic Chronic 3, H412
Benzenesulfonic acid, propenated, calcium salt, overbased	(CAS No) 68610-84-4 (EC no) 271-877-7	0.1	Skin Sens. 1, H317 Aquatic Chronic 4, H413

Full text of H-statements: see section 16

4.1.       Description of first aid measures         First-aid measures after inhalation       : Remove victim to fresh air and keep at rest in a position comfortable for breathing.         First-aid measures after skin contact       : Take off immediately all contaminated clothing. Wash off immediately with scap and plenty or water. If skin irritation occurs: Get medical advice/attention.         First-aid measures after skin contact       : Rinse immediately and plentfully with water, also under the eyelids, for at least 20 minutes. Remove contact lenses, if present and easy to do. Continuer rinsing.         First-aid measures after inpaction       : Do not induce vomiling. Never give anything by mouth to an unconscious person. Immediate get medical attention.         4.2.       Most important symptoms and effects, both acute and delayed         Symptoms/injuries after inhalation       : May cause irritation to the respiratory tract. May cause servere, permanent tissue damage. May cause server is in intration / dermatitis.         Symptoms/injuries after ingestion       : May cause ery irritation.         Symptoms/injuries after ingestion       : May cause ery irritation.         Symptoms/injuries after ingestion       : May cause irritation.         Symptoms/injuries after ingestion       : May cause ery irritation.         Symptoms/injuries after ingestion       : May cause irritation.         Symptoms/injuries after ingestion       : May result in aspiration into the lungs, causing chemical pneumonia.         4.3.		
First-aid measures after inhalation       : Remove victim to fresh air and keep at rest in a position comfortable for breathing.         First-aid measures after skin contact       : Take off immediately all contaminated clothing. Wash off immediately with scap and plenty of water. It skin irritation occurs: Get medical advice/attention.         First-aid measures after eye contact       : Rinse immediately and plentfully with water, also under the eyelids, for at least 20 minutes. Remove contact lenses, if present and easy to do. Continue rinsing.         First-aid measures after ingestion       : Do not induce vorniting. Never give anything by mouth to an unconscious person. Immediate get medical attention.         4.2.       Most important symptoms and effects, both acute and delayed         Symptoms/injuries after skin contact       : Injection under the skin of pressurized hydrocarbons can cause severe, permanent tissue damage. May cause skin initation / dermatitis.         Symptoms/injuries after ingestion       : May result in aspiration into the lungs, causing chemical pneumonia.         4.3.       Indication of any immediate medical attention and special treatment needed         No additional information available       : carbon dioxide (CO2), water, dry chemical powder.         Suitable extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Suitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.      <	SECTION 4: First aid measures	
First-aid measures after skin contact       : Take off immediately all contaminated clothing. Wash off immediately with soap and plenty or water. If skin irritation occurs: Get medical advice/attention.         First-aid measures after eye contact       : Rinse immediately and plentfully with water, also under the eyelids, for at least 20 minutes. Remove contact lenses, if present and easy to do. Continue rinsing.         First-aid measures after ingestion       : Do not induce vomiting. Never give anything by mouth to an unconscious person. Immediately get medical attention.         4.2.       Most important symptoms and effects, both acute and delayed         Symptoms/injuries after inhalation       : May cause iritation to the respiratory tract. May cause drowsiness or dizziness.         Symptoms/injuries after skin contact       : May cause eye iritation.         Symptoms/injuries after eye contact       : May cause eye iritation.         Symptoms/injuries after ingestion       : May result in aspiration into the lungs, causing chemical pneumonia.         4.3.       Indication of any immediate medical attention and special treatment needed         No additional information available       : Carbon dioxide (CO2), water, dry chemical powder.         St.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         St.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Exarbous decomposition produc		. Remove victim to fresh air and keep at rest in a position comfortable for broathing
Remove contact lenses, if present and easy to do. Continue rinsing.         First-aid measures after ingestion       : Do not induce vomiting. Never give anything by mouth to an unconscious person. Immediate get medical attention.         4.2.       Most important symptoms and effects, both acute and delayed         Symptoms/injuries after inhalation       : May cause irritation to the respiratory tract. May cause drowsiness or dizziness.         Symptoms/injuries after skin contact       : Injection under the skin of pressurized hydrocarbons can cause severe, permanent tissue damage. May cause exis in irritation / dermatitis.         Symptoms/injuries after eye contact       : May cause eye irritation.         Symptoms/injuries after ingestion       : May cause eye irritation.         Statable extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : carbon dioxide (CO2), water	First-aid measures after skin contact	: Take off immediately all contaminated clothing. Wash off immediately with soap and plenty of
4.2.       Most important symptoms and effects, both acute and delayed         Symptoms/injuries after inhalation       : May cause irritation to the respiratory tract. May cause drowsiness or dizziness.         Symptoms/injuries after skin contact       : Injection under the skin of pressurized hydrocarbons can cause severe, permanent tissue damage. May cause skin irritation / dermatitis.         Symptoms/injuries after eye contact       : May cause eye irritation.         Symptoms/injuries after ingestion       : May result in aspiration into the lungs, causing chemical pneumonia.         4.3.       Indication of any immediate medical attention and special treatment needed         No additional information available       Way result in aspiration into the lungs, causing chemical pneumonia.         5.1.       Extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case of if:       Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters       : Cool down the containers exposed to heat with a water spray.         Protective equipment for firefighters       : Wear proper	First-aid measures after eye contact	
Symptoms/injuries after inhalation       : May cause irritation to the respiratory tract. May cause drowsiness or dizziness.         Symptoms/injuries after skin contact       : Injection under the skin of pressurized hydrocarbons can cause severe, permanent tissue damage. May cause eskin irritation / dermatitis.         Symptoms/injuries after signestion       : May cause eye irritation.         Symptoms/injuries after ingestion       : May cause eye irritation.         4.3.       Indication of any immediate medical attention and special treatment needed         No additional information available       SECTION 5: Firefighting measures         5.1.       Extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case of ifree       : Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters       : Cool down the containers exposed to heat with a water spray.         Protective equipment for firefighters       : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures       6.1.	First-aid measures after ingestion	: Do not induce vomiting. Never give anything by mouth to an unconscious person. Immediately get medical attention.
Symptoms/injuries after skin contact : Injection under the skin of pressurized hydrocarbons can cause severe, permanent tissue damage. May cause skin irritation / dermatitis. Symptoms/injuries after eye contact : May result in aspiration into the lungs, causing chemical pneumonia. 4.3. Indication of any immediate medical attention and special treatment needed No additional information available SECTION 5: Firefighting media : carbon dioxide (CO2), water, dry chemical powder. Unsuitable extinguishing media : carbon dioxide (CO2), water, dry chemical powder. Unsuitable extinguishing media : None known. 5.2. Special hazards arising from the substance or mixture Fire hazard : None known. Explosion hazard : None known. Hazardous decomposition products in case of : Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides. 5.3. Advice for firefighters : Cool down the containers exposed to heat with a water spray. Protective equipment for firefighters : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus. SECTION 6: Accidental release measures 6.1. Personal precautions, protective equipment and emergency procedures 6.1. For non-emergency personnel Protective equipment : Wear personal protection equipment.	4.2. Most important symptoms and effe	cts, both acute and delayed
damage. May cause skin irritation / dermatitis.         Symptoms/injuries after eye contact       : May cause eye irritation.         Symptoms/injuries after ingestion       : May result in aspiration into the lungs, causing chemical pneumonia.         4.3.       Indication of any immediate medical attention and special treatment needed         No additional information available       E         SECTION 5: Firefighting media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : none known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case of fire       : Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters       : Cool down the containers exposed to heat with a water spray.         Protective equipment for firefighters       : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures       6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel       Protective	Symptoms/injuries after inhalation	: May cause irritation to the respiratory tract. May cause drowsiness or dizziness.
Symptoms/injuries after ingestion       : May result in aspiration into the lungs, causing chemical pneumonia.         4.3.       Indication of any immediate medical attention and special treatment needed         No additional information available         SECTION 5: Firefighting measures         5.1.       Extinguishing media         Suitable extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case of fire       : Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters       : Cool down the containers exposed to heat with a water spray.         Protective equipment for firefighters       : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures       6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel       Protective equipment       : Wear personal protection equipment.	Symptoms/injuries after skin contact	
4.3.       Indication of any immediate medical attention and special treatment needed         No additional information available         SECTION 5: Firefighting measures         5.1.       Extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case or in the substance or monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters         Firefighting instructions       : Cool down the containers exposed to heat with a water spray.         Protective equipment for firefighters       : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures       6.1.         6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel         Protective equipment       : Wear personal protection equipment.	Symptoms/injuries after eye contact	: May cause eye irritation.
No additional information available         SECTION 5: Firefighting measures         5.1.       Extinguishing media         Suitable extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case of fire       : Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters         Firefighting instructions       : Cool down the containers exposed to heat with a water spray.         Protective equipment for firefighters       : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures       6.1.         6.1.1.       For non-emergency personnel         Protective equipment       : Wear personal protection equipment.	Symptoms/injuries after ingestion	: May result in aspiration into the lungs, causing chemical pneumonia.
SECTION 5: Firefighting measures         5.1.       Extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case of fire       : Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters         Firefighting instructions       : Cool down the containers exposed to heat with a water spray.         Protective equipment for firefighters       : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures       6.1.         6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel         Protective equipment       : Wear personal protection equipment.	4.3. Indication of any immediate medica	I attention and special treatment needed
5.1.       Extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case of fire       : Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters       : Cool down the containers exposed to heat with a water spray.         Firefighting instructions       : Vear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures       6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel       Protective equipment       : Wear personal protection equipment.	No additional information available	
Suitable extinguishing media       : carbon dioxide (CO2), water, dry chemical powder.         Unsuitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case of fire       : Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters       : Cool down the containers exposed to heat with a water spray.         Protective equipment for firefighters       : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures       6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel       Protective equipment       : Wear personal protection equipment.	SECTION 5: Firefighting measures	
Unsuitable extinguishing media       : None known.         5.2.       Special hazards arising from the substance or mixture         Fire hazard       : None known.         Explosion hazard       : None known.         Hazardous decomposition products in case of fire       : Hazardous decomposition products may be released during prolonged heating like smokes, carbon monoxide and dioxide. Aldehydes. Sulfur oxides.         5.3.       Advice for firefighters         Firefighting instructions       : Cool down the containers exposed to heat with a water spray.         Protective equipment for firefighters       : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures       6.1.         6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel         Protective equipment       : Wear personal protection equipment.	Hazardous decomposition products in case of fire	
Protective equipment for firefighters       : Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.         SECTION 6: Accidental release measures         6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel         Protective equipment       : Wear personal protection equipment.	5.3. Advice for firefighters	
SECTION 6: Accidental release measures         6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel         Protective equipment       : Wear personal protection equipment.	Firefighting instructions	: Cool down the containers exposed to heat with a water spray.
6.1.       Personal precautions, protective equipment and emergency procedures         6.1.1.       For non-emergency personnel         Protective equipment       : Wear personal protection equipment.	Protective equipment for firefighters	: Wear proper protective equipment. In case of fire: Wear self-contained breathing apparatus.
6.1.1.       For non-emergency personnel         Protective equipment       : Wear personal protection equipment.	SECTION 6: Accidental release mea	sures
Protective equipment : Wear personal protection equipment.	6.1. Personal precautions, protective ec	uipment and emergency procedures
	6.1.1. For non-emergency personnel	
Emergency procedures : Evacuate area. Avoid contact with skin, eyes and clothes.	Protective equipment	: Wear personal protection equipment.
	Emergency procedures	: Evacuate area. Avoid contact with skin, eyes and clothes.

Safety Data Sheet

according to Regulation (EU) 2015/830

6.1.2. For emergency responders		
Protective equipment : Wear suitable protective clothing. In case of fire: Wear self-contained breathing apparatu		
Emergency procedures	: Evacuate and limit access. Stop leak if safe to do so. Use ventilation/water spray/fog to disperse vapours. Do not touch spilled material.	
6.2. Environmental precautions		
Avoid release to the environment. Notify auth	norities if liquid enters sewers or public waters.	
6.3. Methods and material for contain	nment and cleaning up	
For containment	: Clean up any spills as soon as possible, using an absorbent material to collect it. For larger spills, dike area and pump into waste containers.	
Methods for cleaning up	: Collect all waste in suitable and labelled containers and dispose according to local legislation.	
6.4. Reference to other sections		
No additional information available		
SECTION 7: Handling and storage	•	
7.1. Precautions for safe handling		
Additional hazards when processed	: Handling this product may result in electrostatic accumulation. Use proper grounding procedures.	
Precautions for safe handling	: Avoid contact with skin, eyes and clothing. Avoid inhalation of vapours. Avoid static electricity discharges. Provide earthing of containers, equipment, pumps and ventilation facilities.	
Hygiene measures	<ul> <li>Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Handle in accordance with good industrial hygiene and safety practices. Take off contaminated clothes. Wash contaminated clothing prior to re-use.</li> </ul>	
7.2. Conditions for safe storage, incl	uding any incompatibilities	
Storage conditions	: Store in a dry, cool and well-ventilated place.	
Special rules on packaging	: Keep only in original container.	
7.3. Specific end use(s)		
No additional information available		
SECTION 8: Exposure controls/pe	ersonal protection	
8.1. Control parameters		
Calcium petroleum sulfonate (61789-86-		

Calcium petroleum sulfonate (61789-86-4)		
Germany	TRGS 900 Occupational exposure limit value (mg/m <sup>3</sup> )	5 mg/m <sup>3</sup> (respirable fraction)

Appropriate engineering controls	: Either local exhaust or general room ventilation is usually required.
Personal protective equipment	: Gloves. Protective clothing. Insufficient ventilation: wear respiratory protection.
Materials for protective clothing	: Wear suitable protective clothing. Natural fibres (e.g. cotton)
Hand protection	: Wear suitable gloves tested to EN374. Thickness of glove material: > 0.13 mm. Break through time: ≥ 480 min
Eye protection	: Use splash goggles when eye contact due to splashing is possible. DIN EN 166
Respiratory protection	: In case of inadequate ventilation wear respiratory protection. Wear a respirator conforming to EN140 with Type A/P2 filter or better

**SECTION 9: Physical and chemical properties** Information on basic physical and chemical properties 9.1. : Liquid Physical state Colour : Brown Odour : Characteristics. Odour threshold : No data available : No data available pН Relative evaporation rate (butyl acetate=1) : No data available 17/07/2018 EN (English)

Safety Data Sheet

according to Regulation (EU) 2015/830

Melting point	: No data available
Freezing point	: No data available
Boiling point	: No data available
Flash point	: 232 °C
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapour pressure	: No data available
Relative vapour density at 20 °C	: No data available
Relative density	: No data available
Density	: 0.8755 g/mL @ 15°C
Solubility	: No data available
Log Pow	: No data available
Viscosity, kinematic	: 14.5 mm²/s @ 100°C
Viscosity, dynamic	: No data available
Explosive properties	: Not explosive. However, formation of explosive air/vapour mixtures are possible.
Oxidising properties	: not oxidizing.
Explosive limits	: No data available
0.2 Other information	

### 9.2. Other information

No additional information available

SECTIO	ON 10: Stability and reactivity
10.1.	Reactivity
Stable un	nder normal conditions.
10.2.	Chemical stability
Stable un	nder normal conditions.
10.3.	Possibility of hazardous reactions
None kno	own under normal conditions of use. No polymerization.
10.4.	Conditions to avoid
Keep awa	ay from heat/sparks/open flames/hot surfaces No smoking.
10.5.	Incompatible materials
Strong ox	xidizing agents.
10.6.	Hazardous decomposition products

No hazardous decomposition products known at room temperature.

SECTION 11: Toxicological information		
11.1. Information on toxicological effects		
Acute toxicity	: Not classified	
Skin corrosion/irritation	: Not classified	
Serious eye damage/irritation	: Causes serious eye irritation.	
Respiratory or skin sensitisation	: Not classified	
Germ cell mutagenicity	: Not classified	
Carcinogenicity	: Not classified	
Reproductive toxicity	: Not classified	
Specific target organ toxicity (single exposure)	: Not classified	
Specific target organ toxicity (repeated exposure)	: Not classified	
Aspiration hazard	: Not classified	
ENOC VULCAN 888X SAE 15W-40		
Viscosity, kinematic	14.5 mm²/s @ 100°C	

SECTIO	ON 12: Ecological information
12.1.	Toxicity
No additi	onal information available

### Safety Data Sheet

according to Regulation (EU) 2015/830

12.2. Persistence and degradability	
No additional information available	
12.3. Bioaccumulative potential	
No additional information available	
12.4. Mobility in soil	
No additional information available	
12.5. Results of PBT and vPvB assessment No additional information available	
No additional mormation available	
12.6. Other adverse effects	
No additional information available	
<b>SECTION 13: Disposal considerations</b>	
13.1. Waste treatment methods	
Regional legislation (waste) :	Waste disposal according to EC directives 75/442/EEC and 91/689/EEC in the corresponding
	versions, covering waste and dangerous waste.
Waste treatment methods :	Can be incinerated according to local regulations.
Waste disposal recommendations :	Dispose of this material and its container to hazardous or special waste collection point.
European List of Waste (LoW) code :	13 02 05* - mineral-based non-chlorinated engine, gear and lubricating oils
SECTION 14: Transport information	
In accordance with ADR / RID / IMDG / IATA / ADN	
14.1. UN number	
UN-No. (ADR) :	Not applicable
UN-No. (IMDG)	Not applicable
UN-No. (IATA)	Not applicable
UN-No. (ADN) :	Not applicable
	Not applicable
14.2. UN proper shipping name	
Proper Shipping Name (ADR) :	Not applicable
Proper Shipping Name (IMDG) :	Not applicable
Proper Shipping Name (IATA) :	Not applicable
Proper Shipping Name (ADN) :	Not applicable
Proper Shipping Name (RID) :	Not applicable
14.3. Transport hazard class(es)	
ADR	
	Not applicable
IMDG	
	Not applicable
ΙΑΤΑ	
Transport hazard class(es) (IATA) :	Not applicable
